Taking the car is easy, why change?

Using a big car to get from A to B is a really expensive and wasteful way to travel.

Using up the world's diminishing oil resourse, filling the sky with nasty pollutants like oxides of nitrogen, carbon monoxide/dioxide and noise.

Not to mention, the more cars on the road, the more time it will take you anyway.

What is the alternative to driving?

- Walk feel healthier.
- Cycle improve your fitness.
- Catch the train and catch up wth work.
- Bus it let someone else take the strain.Lift share cut down your petrol costs.

Where there's a will, there's a way...

Who will help me change?
